TRICK BANJO MAN,

JOHN TURNER, DEAD.

Popular Old-Time Minstrel Was First

to Show One-Hand Playing.

New York, Sept. 14.—John M. Turner,
humorist, actor, and originator of trick
banjo playing, is dead at the Post Gradu-
ate hospital, following an operation for
appendicitis. He was one of the most
popular of the old-timers in minstrelsy,
and the first man to play a banjo with
one hand.

Turner was the founder of the Van-
pire club, and his ready wit and mimicry
were known from coast to coast. Dur-
ing the last five years the veteran ban-
joist had lived in practical retirement,
doing now and then a little work for
Low Docket.

Forty years ago he started a banjo
instruction school, and in the early eighties
he gave up his school for the stage. He
"caught on" at once, and his banjo play-
ing was a feature of a dozen or
more shows with which he appeared.
Several times he toured Europe and
played before some of the crowned
heads.

Buried With "am."

John Sharp Williams, at the end of

his recent debate with Gov. Vandeman

at Meriden, Miss., talked about pride.

"There is a decent and noble pride,"
said Mr. Williams, "and there is a pride
that is mean and ludicrous. An aged
citizen of Yazoo tells of an old woman
whose pride was the latter sort.

"This old woman lived in Yorkshire.
There was a funeral one day in the
next village. She did not attend it,
but a neighbor of hers was there. That
night she called on the neighbor and
said:

"Well, Nancy, I hear you was at t'
funeral."

"Yes, I was," Nancy replied.

"What kind of a funeral was it?"

"Nancy sniffed.

"Why, it was a weary mean affair,"

she said. "There was no but for his
cunts 'em."

"Ah, said the other old woman,
I've lost five, but, thank 'em, I've
buried 'em all with 'am.'—Washington
Star.

The West's Largest Cave.

Two gold prospectors recently dis-

covered in the Santa Susana mount-

ains, about fifty miles from Los Angeles,

Cal., the largest and most remarkable

cave in western America. While look-

ing for indications of gold they found

an opening which they entered.

The opening led to a great cavern, consist-

ing of many passages, some of them

wide, but most of them narrow and

low. The passages led into great halls,

some an acre in extent, studded with

stalagmites and stalactites in some cases

so thickly that it is difficult to get

through. The walls of one of these halls

are covered with rude drawings, some

almost obliterated, but others still

clear. The drawings represent incidents

of the chase, showing Indians on foot

pursuing bear, deer and other animals.

One wall painting shows the bear pur-

suing the hunter. The work is done

with a soft, red stone much used by the

Indians for that purpose.—Scientific
American.

Cataract Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot

reach the seat of the disease. Cataract is a

blood constitutional disease, and in order to

cure it you must take internal remedies. Hall's

Cataract Cure is taken internally, and acts di-

rectly on the blood and mucous surfaces. Hall's

Cataract Cure is not a quick medicine. It is

prescribed by one of the best physicians in this

country for years and is a reg. 'n' prescription.

It is composed of the best 'n' known, com-

bined with the best blood purifier, acting di-

rectly on the mucous surfaces. The perfect

combination of the two ingredients is what

produces such wonderful results in curing Ca-

taract. Send for testimonials free.

J. J. CHENEY & CO., Props., Toledo, O.

Sole Druggists, prices 50c. Bottle, 80c. and 1.00.

Take Hall's Family Pills for constipation.

ABOUT THE STATE.

Items of Interest Gleaned From Our

Exchanges.

The souvenir post card craze contin-
ues to prove a great boom for one cent
stamps. In Bennington, over 32,000
stamps of this denomination were sold
last month, most of which found their
way to souvenir cards.

Charles C. Wilson of Bethel, a mem-
ber of this year's class at the univer-
sity of Vermont, was awarded the
Rhodes scholarship for Vermont, and
will leave Monday for Oxford, England to
enter Christ Church college this fall.

The Vermont Marble company has
purchased the water right in Furnace
brook in Brandon and will put in a large
water power costing in the vicinity of
\$300,000. They will build two reser-
voirs, the lower one being at a height
of 450 feet above Proctor.

The jury in the case of Rosalyn Du-
chaine vs. Thomas F. Ahern returned a
verdict Thursday afternoon in Chittenden
county court for the plaintiff to re-
ceive damages of \$175 and costs. The
arguments in this case were made yester-
day morning and the case went to the
jury shortly before noon.

A fraternal organization known as
Sigma Chi is in a fair way to break up
the athletic prospects of Montpelier
school. Many of the school's best
athletes threaten to leave because of
the hold this fraternity has taken, the
charge being that inefficient men have
been thrust into the best offices.

Hook and line fishing is reported as
being universally good in the vicinity of
Swanton, fine strings of bass, pickerel
and pike being landed almost every day.
The rocks in Magnan bay near Hog
Island point, are favorite fishing places.
Pout are caught freely at the mouth of
the river and big pickerel are biting
readily in Missisquoi bay an 18 pounder
being among the number.

The unconscious form of A. D. Smith
a New Gloucester, 75 years old,
was found in the Rutland freight yards
last Wednesday evening. It is thought
that the old man got off the wrong side
of the Saratoga special and after wander-
ing about the yards was struck by
the shifter. He was too dazed to tell
what happened but his injuries are not
serious.

John has fallen in Middlebury more
or less steadily for two weeks and
farmers are greatly discouraged over
harvesting their grain. Scores of acres
cut down in the fields, have turned black
and are utterly ruined. There is great
fear, also, that the potato crop in many
localities will be ruined by rot if the
rain continues.

CALLED TO PASTORATE.

Rev. John M. Thomas Unanimously In-

vited to The First Church.

Burlington, Sept. 14.—At meetings of

the church organization and society of

the First church Thursday evening a

unanimous call was extended to the

Rev. John M. Thomas of East Orange,

N. J., to succeed the Rev. J. H. George

as pastor. The salary is to be \$2,500

a year and the use of the parsonage

is expected that Mr. Thomas will ac-

cept the call.

Mr. Thomas, who is the son of the
Rev. C. N. Thomas of Bristol, is about
38 years of age, married and has three
children. He graduated from Middlebury
college and later from Union Theologi-
cal seminary, going directly to East
Orange, where he has preached for nearly
14 years. He occupied the pulpit of
the First church on Sunday, August 18.

Annual Meeting St. J. & L. C.

St. Johnsbury, Sept. 13.—The annual

meeting of the stockholders of the St.

Johnsbury & Lake Champlain railroad

was held here yesterday and the fol-
lowing board of directors elected: H. N.Turner, St. Johnsbury; H. E. Folsom,
Lyndonville; Carroll S. Page, Lyndon-
ville; F. G. Fleetwood, Morrisville; C. C.H. Stevens, St. Johnsbury; Harry Tuttle,
St. Johnsbury; Lucius Tuttle, Boston;

Samuel G. Lawrence, Medford, Mass.;

A. W. Salloway, Franklin, N. H.

The directors elected H. E. Folsom,
president; H. N. Turner, vice-president;George W. Cree, St. Johnsbury, sec-
retary and treasurer. These are the same

directors and officers as last year.

MAINE WHITE PINES DYING.

Two Government Experts Make Investi-

gation.

Augusta, Me., Sept. 14.—Two Govern-

ment experts are in the state to in-

vestigate a report that a number of

white pine trees in the western part of

Maine are dying. No one knows the

exact cause, but the needles of the pines

turn a rusty brown color and drop off

and soon afterward the tree dies. The

outcome of the investigation will be

watched with much interest as it means

much to the state, the white pine pro-

ducts running into many thousands of

dollars each year.

Well Placed.

The head of a large mercantile house

received not long ago a letter from a

millionaire banker in the West asking

that the latter's son be placed in some

business house where he could learn

"things from the bottom up." The writer

explained that his offspring was "no

good at home."

Soon after the Western millionaire
received the following reply from his
New York friend:

Dear Blank:—Your hopeful has ar-
rived. I have given him employment in
my establishment at \$6 a week with
others of his class. One of these

young men has just bought a \$30,000
yacht and another comes to the office in

a \$50,000 motor car. No doubt your son
will find his surroundings congenial."—
Harper's Weekly.

Automobile Manufacture.

It appears that France, which a few

years ago led the world in the manu-

facture of automobiles, is relatively

dropping back, at least in the number

of machines produced. For instance,

in 1906 France manufactured 10,039

automobiles, England 3,491 and Ger-

many 2,319. In 1906 the figures for

the same countries were, respectively

52,000, 27,000 and 22,000. In the same

year the United States, beginning with

a few hundred in 1902, leaped to the

front, producing 58,000 machines, 3,000

more than France, Italy and Belgium

have also made enormous strides in

the past two or three years, the figures

for this country in 1906 being re-

spectively 18,000 and 12,000.—Youth's

YOUR HAT

May Be a Stylish One, But It Makes

Trouble.

A man usually wears a hat that's "in
style," but the modern hat for men has
become a source of trouble. Baldheads
are growing more numerous
every day. Hats make excellent
breeding places for the parasitic germs
which sap the life from the roots of the
hair.

When your hair begins to fall out and
your scalp is full of dandruff it is a
sure sign that these countless germs are
busily at work.

There is but one way to overcome the
trouble and kill the germs—that way is
to apply Newbro's Herpicide to the
scalp. It will kill the germs and healthy
hair is sure to result.

Sold by leading druggists. Send 10c. in
stamps for sample to The Herpicide Co.,
Detroit, Mich.

Two sizes—40 cents and \$1.00.
E. A. Brown, Special Agent.

TO START A COLLEGE

OF TEAM DRIVING.

Chicagoan Plans Scientific Teaching of

How to Handle the Reins Over

Horses.

Chicago, Ill., Sept. 14.—A grimy-faced
coach wagon driver with a diploma in his
pocket may not be an unusual sight in
Chicago when T. T. Cavanaugh's college
for teamsters gets into operation. Cavan-
agh, who is secretary of the Team
Owners' association, has been making
some statistical investigations among
the seven thousand drivers under his
jurisdiction, and he believes that at
least 20 per cent. of them are deficient
on the rein handling.

He proposes to educate these men by
a three-months' course of class-room
work, supplemented with lectures. At
the conclusion of the term, if the driver
passes a successful examination, he will
be graduated with the degree of expert
teamster.

A GUILTY CONSCIENCE.
